

## Grains at a Glance

Grains has been one of LDC's flagship business lines since 1851. Today, our global activities span the entire grains value chain.

We source grain products - including wheat, corn, sorghum, barley, rye, oats, dried distillers' grains and corn-based ethanol - from all major producing areas. Our ever-growing, global network of processing, storage and distribution assets enables us to serve all key destination markets.

We originate in all major grain-producing regions (Europe, the Black Sea, the Americas and Australia) and manage a broad import and distribution network in key consuming regions, including Europe, Asia, the Middle East and Africa.

Our extensive geographic presence and reach, robust understanding of the grains business and sound risk management practices underpin our leading position.

Leadership also means honoring our commitment to responsible sourcing, traceable supply chains and sustainable business practices globally, leveraging our position to drive positive change.
