

Murex Academy

Global Career Opportunities in Financial Services

Luxoft | excelian
vendor
solutions
A DXC Technology Company

We are looking for talented, technically minded candidates willing to train on the Murex platform and work as consultants in the finance sector.

Requirements for Candidates

A bachelor's degree or postgraduate qualification in Finance, Banking or IT

Working knowledge of SQL/Java/Unix would be an advantage

Strong time management skills – working under tight deadlines and schedules

1–2 years of related experience in banking, preferably within the Financial Services sector

Strong analytical and problem-solving skills

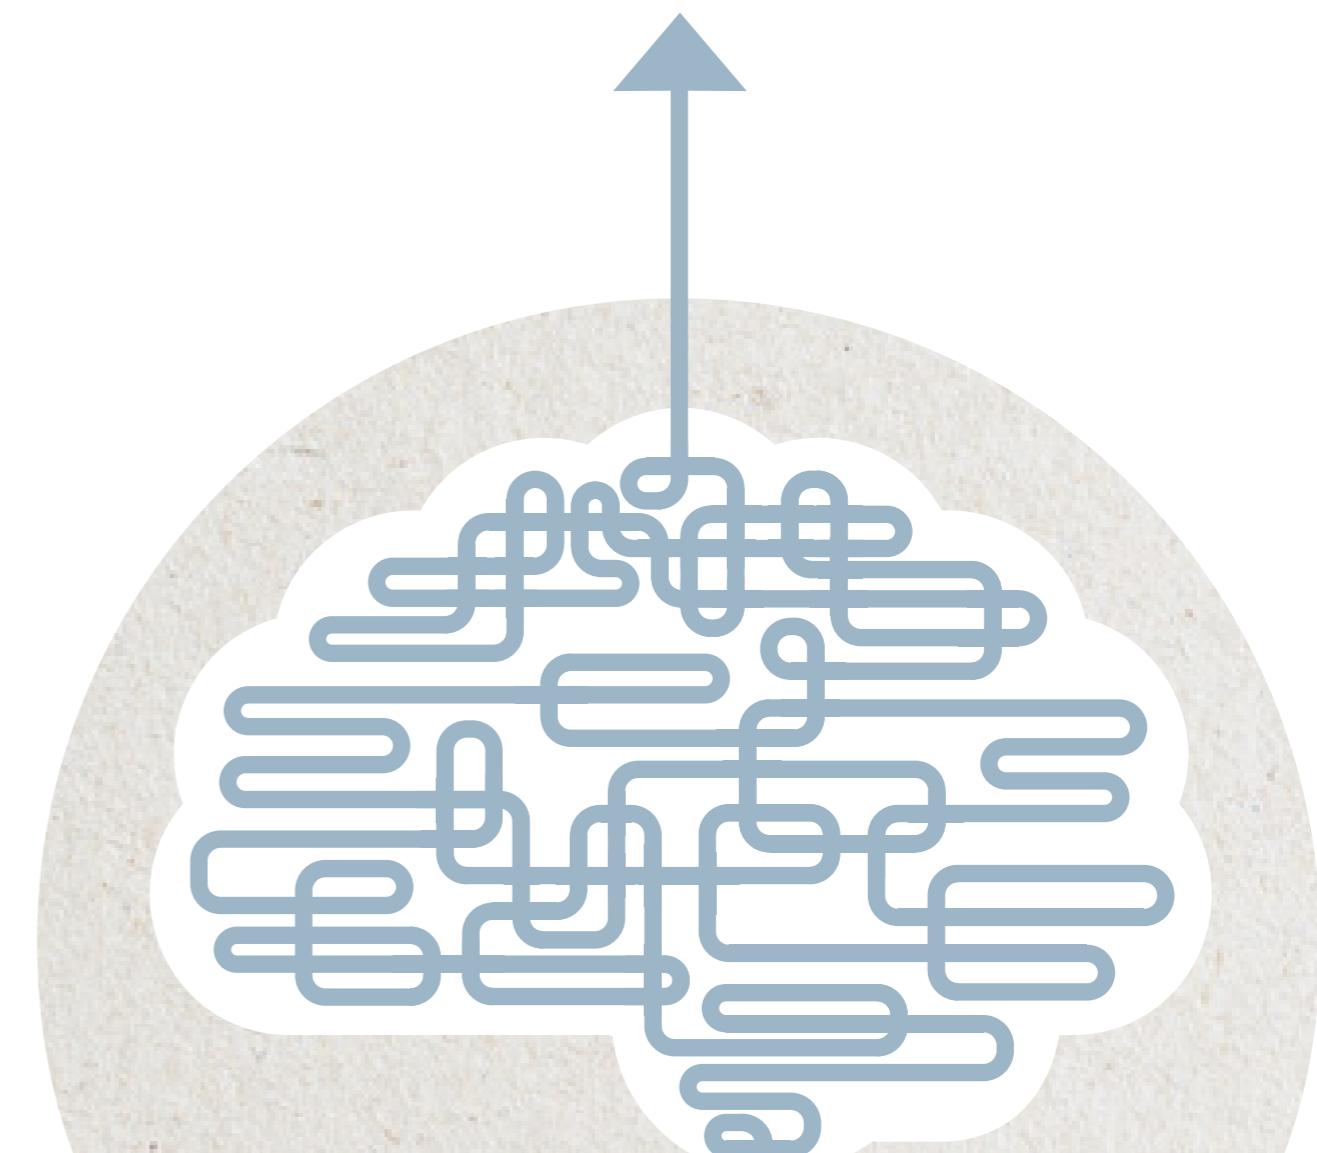

Must be willing and able to travel throughout Asia Pacific

A good understanding of Financial Markets products; basic knowledge on applications such as Murex, Calypso or Kondor+ would be beneficial but not essential

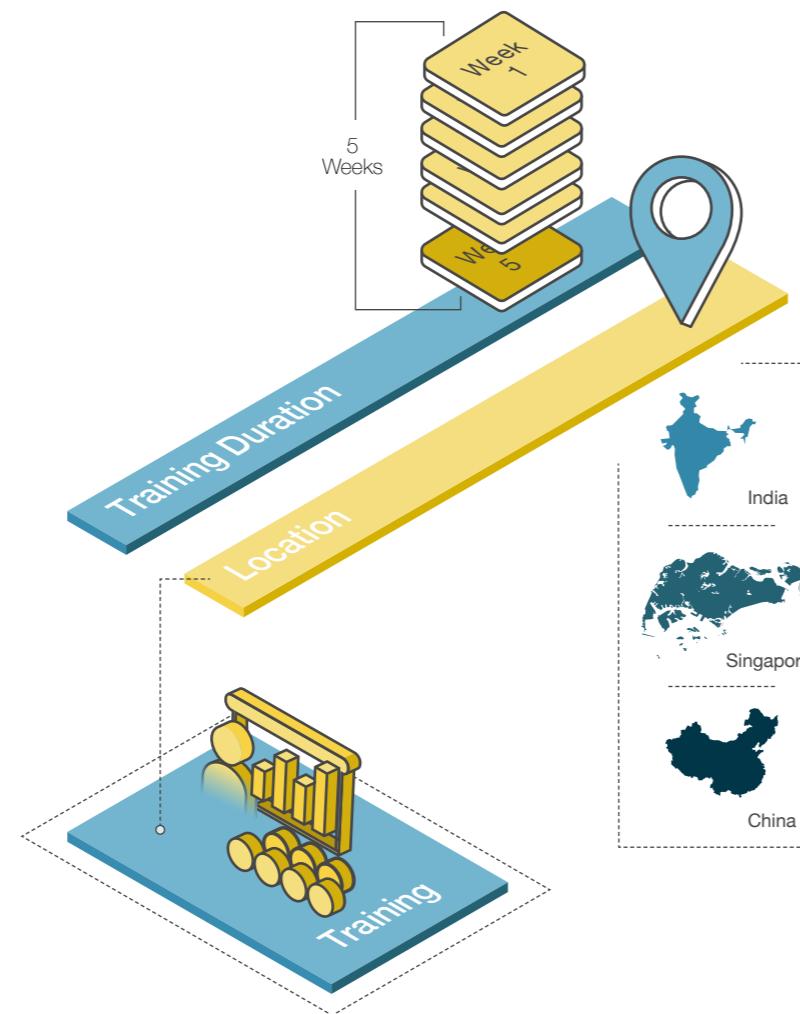

Strong communication and interpersonal skills, with fluency in written and spoken English

A Brief Description of the Project and the Murex Academy Program

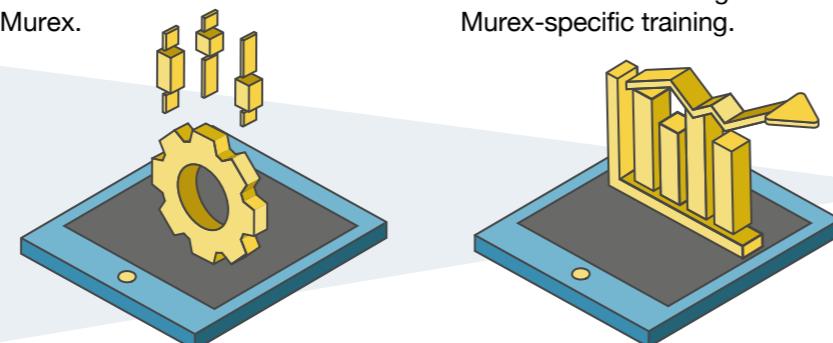

Murex is the leading provider of cross-asset trading, risk management and processing solutions.

The Murex Academy Program is a 5-week intensive introductory training course that is available in our India, Singapore and China offices. Participants are provided with the essential skills required to start working on the Murex platform at client sites.

**Our Murex training has been divided into two areas:
Technical Bootcamp and Functional Bootcamp.**

- 1 The Technical Bootcamp will start with an introduction to the technical fundamentals of Murex.
- 2 The Functional Bootcamp will start with an introduction to financial markets along with Murex-specific training.

After successfully completing the training, you will have an opportunity to develop the skills you have learned through hands-on experience within our team.

Your Expected Responsibilities after the Program, Depending on Your Skill Set

Providing technical or functional support on Murex application

Working alongside a business analyst on a Murex project and helping with requirements gathering for end users, and documentation and execution of test cases

Working with the Murex development team on producing reports, accounting setup, confirmations and payments setup

Working with client-side operations teams, handling trade processing, payments, confirmations and reconciliations

Who We Are

We Are Excelian

Excelian is a division of Luxoft, a DXC Technology Company (NYSE: DXC). We are a digital and software engineering firm providing bespoke technology solutions that drive business change for customers worldwide. We use technology to enable business transformation, enhance customer experiences, and boost operational efficiency through our strategy, consulting and engineering services. With nearly 20 years' experience in financial services, we have deep industry expertise, driving innovation across numerous sectors including capital markets, investment banking, wealth management, asset management, treasury and commodities trading.

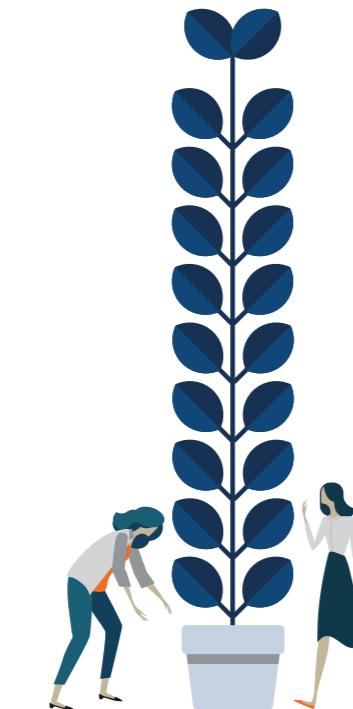

Why Join Us

Career Growth

As an international and innovative technology consultancy, we know that people are the heart of our organization and the cornerstone of our success.

That's why we invest so heavily to help you achieve and fulfil your maximum potential. We will nurture your professional development, and help you progress along a career path that's perfectly suited to your strengths, skills and passion.

Our career path structure allows for career growth and promotion, whether you wish to be a technical subject matter expert, business analyst or programme manager.

Learning and Development

Our learning and development programme is at the heart of our strategy to strengthen our reputation for excellence.

Our people are our business, and that's why we equip them with the technical and soft skills required to be the best. We believe it's about more than the job in hand, or even the next project; it's about growing and developing careers.

We have hundreds of free training courses available, from junior to manager levels:

- Technical training
- Leadership & soft skills
- Foreign languages and many more

Global Mobility

Our global mobility program gives you the opportunity to live and work in a different country, broaden your experience, learn new skills and establish a personal global network.

With 42 delivery offices in 22 countries, we have a range of exciting projects worldwide in which employees can get involved. Our experienced mobility team will assist employees who decide to move abroad, to ensure the transition process is as smooth as possible.

Meet Two Members of Our Training & Development Team

Shalini Vasudevan
Head of Training & Development (APAC)

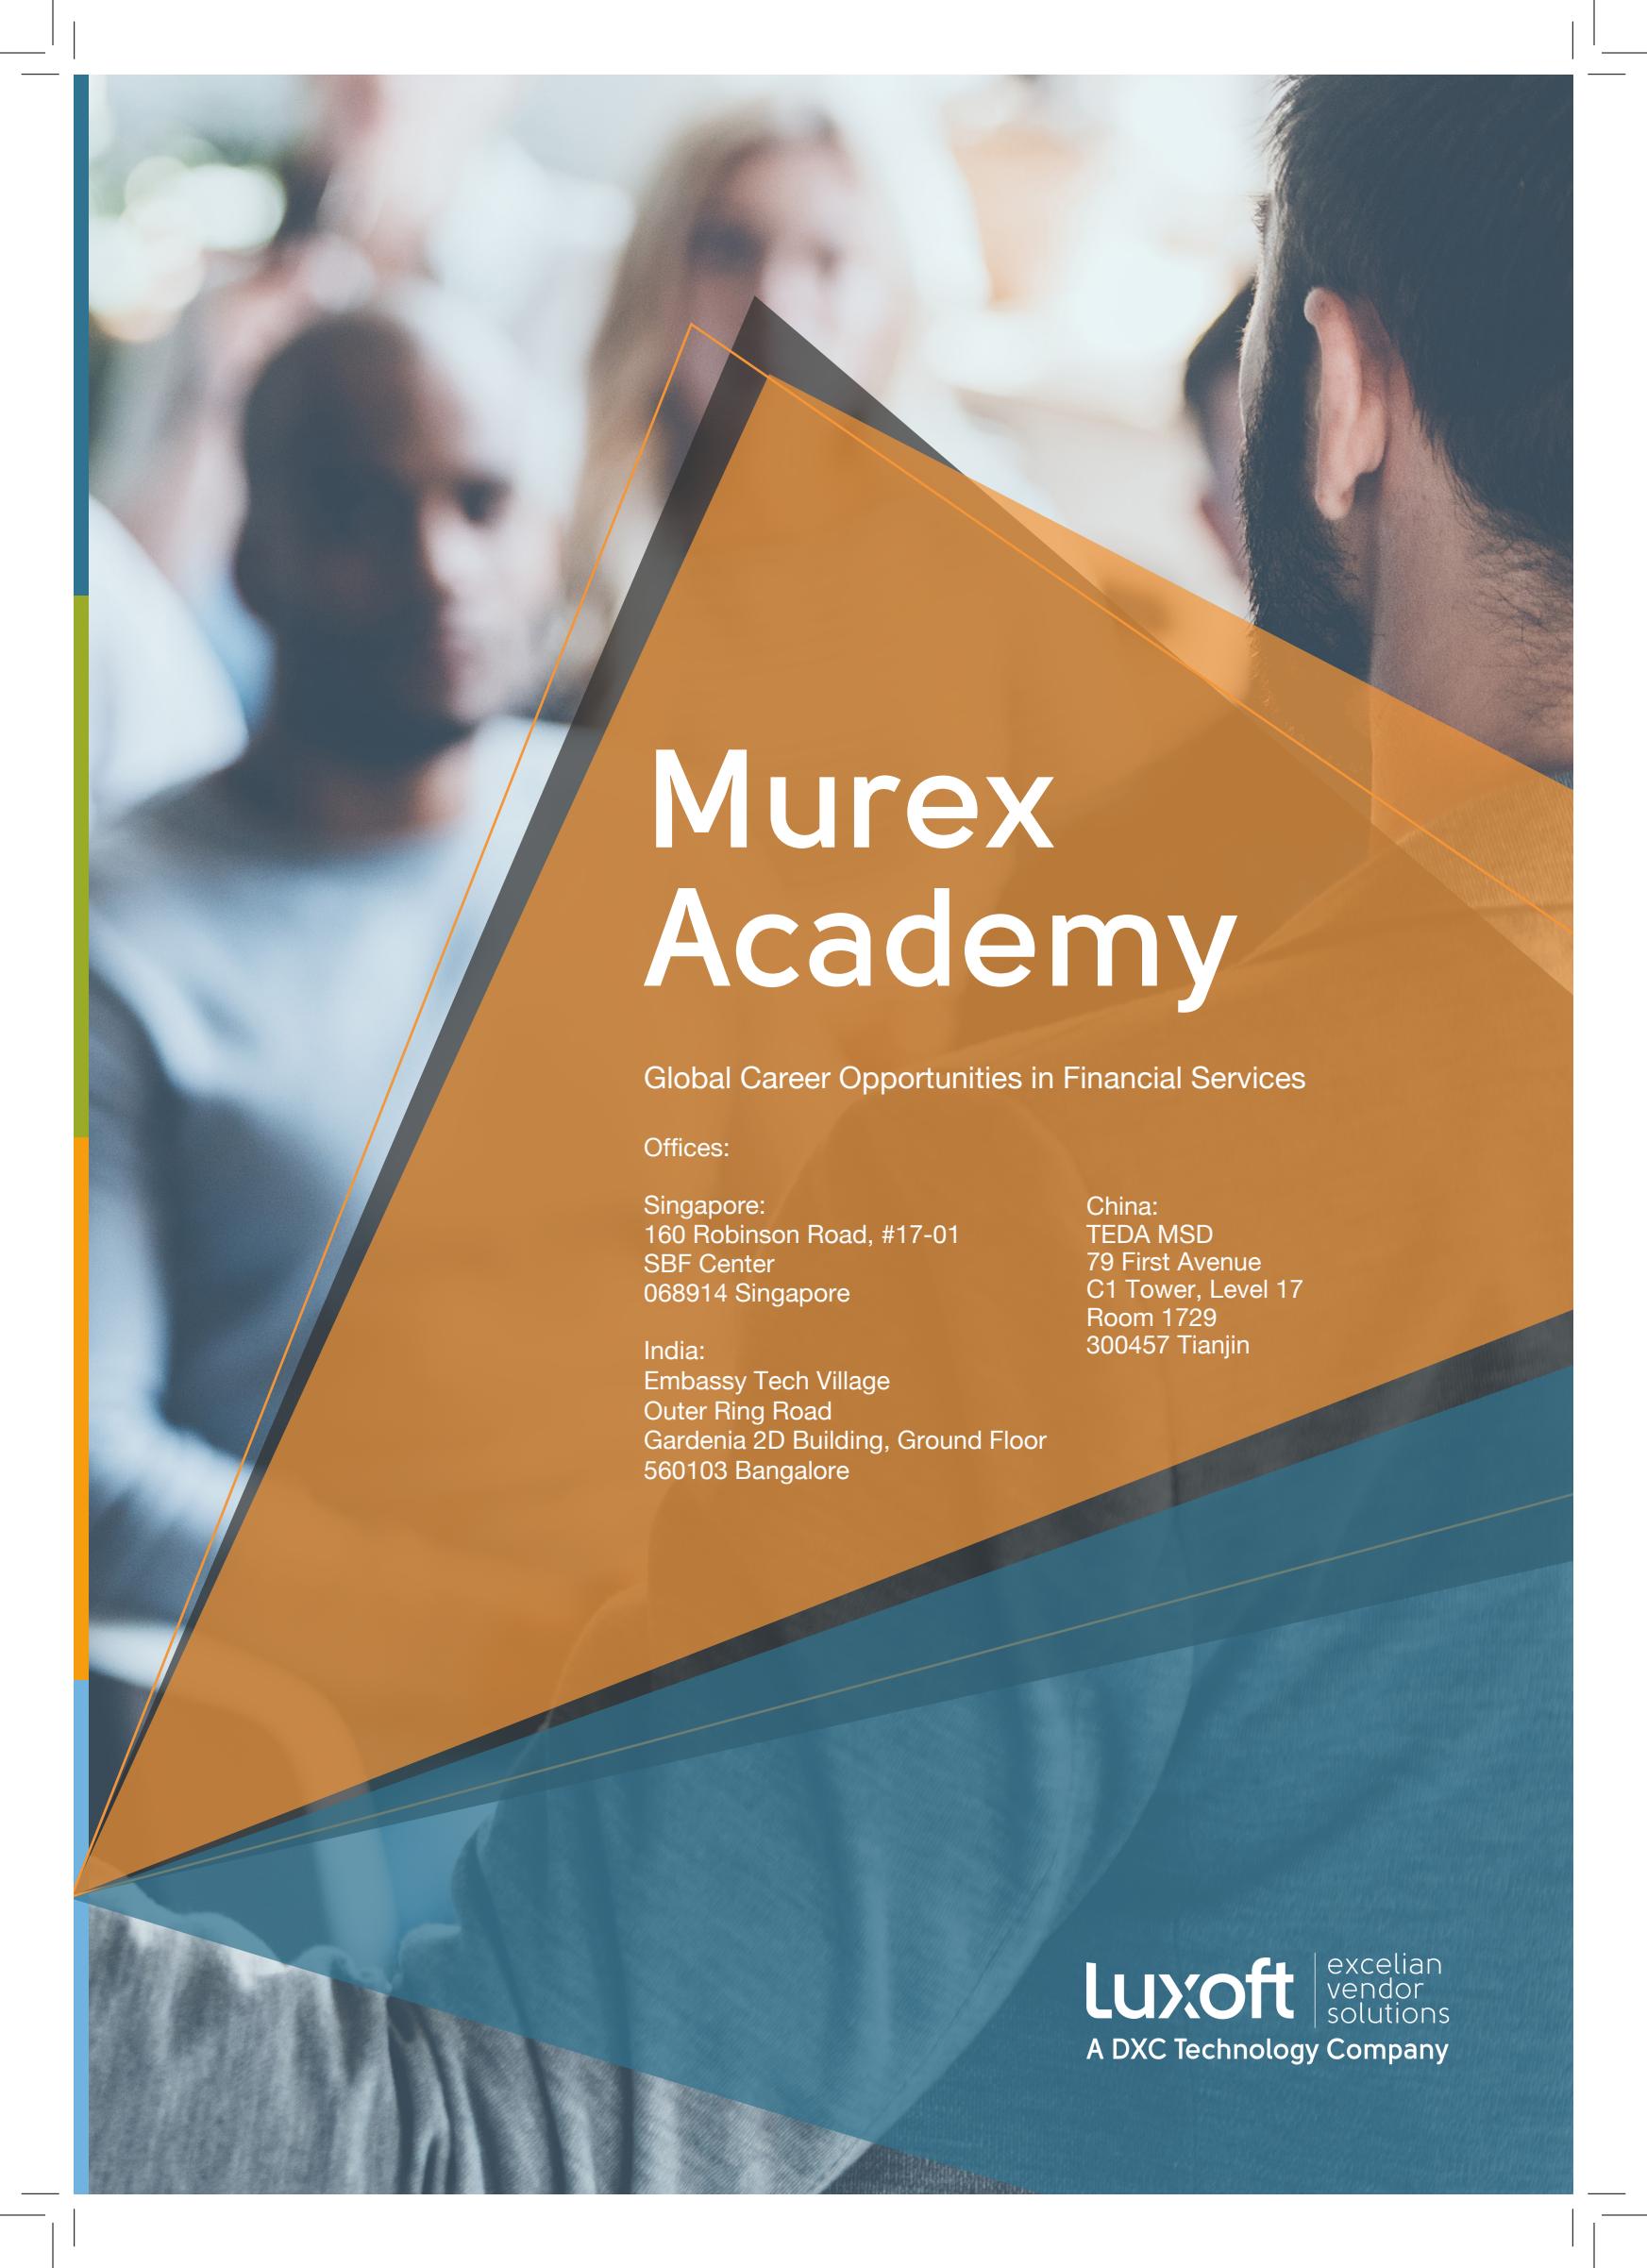

Shalini heads the Training and Development initiatives in the APAC region and is responsible for the evolution of the training and learning processes at Excelian. She has 12+ years of hands-on experience under the Murex trading system services in the area of business analysis and project management, with extensive exposure to the Treasury and Financial Markets. She also handles client-side end-to-end Murex implementation and management. Shalini has an MBA degree specializing in Finance from the Bharathiar University in India, and is PMP certified from the Project Management Institute.

Jakil Dedhia
Senior Consultant
(India)

Jakil is our Capital Markets SME, with over 10 years of industry experience in Asia. As an ex-trader and holding an MBA from IIM Shillong, he brings deep domain knowledge and strong leadership skills. He has a proven track record of leading projects to closure and building strong relationships with clients. Currently he is serving as a senior functional consultant for an Australian client and also heading the Learning & Development program for the APAC region.
