2018 Group Revenue:
USD 2.49B
(CAGR 2008 - 2018 14%)

OUR TECHNOLOGY: Creating Smart Factory Solutions

Smart Factory technology is one of the many new, exciting areas that ASMPT is currently focused on. Industry 4.0 has implications for ASMPT in two ways: externally, it is a new market opportunity as our customers look to set up smart factories, and internally we are transforming ASMPT into a smart digital enterprise.

Our Corporate Responsibility & Sustainability

We are committed to sustainable development and the management of our business for the long term. Our goal is to be relevant and focused on serving our stakeholders and the communities within which we operate and, be accountable for the effect that our business has on the environment and society; to be a sustainable business. Our sustainability framework is built on the four pillars of supporting our communities, managing environmental impact, creating value through innovation, and nurturing our employees.

"We are entering a high growth potential period largely driven by the arrival of the Data Era, due to technological changes such as Artificial Intelligence, Big Data Analytics, Industry 4.0, Internet of Things, Industry Internet of Things, self-driving cars, and 5G."

Our vision is to transform ASMPT into a hardware, software and service in the Industry 4.0 era. We are ready for the next wave of growth."

— MR LEE WAI KWONG
CHIEF EXECUTIVE OFFICER

OUR PEOPLE, OUR CULTURE

At ASMPT, we put our people first. We are committed to helping our people achieve their professional aspirations through a fulfilling career with ASMPT. We have created a conducive working and learning environment that involves and motivates every employee to go further, to innovate and to excel.

"I like the working culture in ASM especially the recognition and opportunity given to those who really excel in their field. My ambition is always to fulfill my task on time and "do more" within management expectation."

Anand Abhilash Anand
Senior Engineer
Bonder Manufacturing Engineering

I was born and raised in a seaside town called Worthing, in the UK. Upon graduation, I wanted to work abroad so I was happy to have found a job in ASMPT Hong Kong in 2014 as a Computer Vision Engineer.

In 2017, I wanted a change of environment. That's when I started exploring the possibility of transferring to one of the many R&D centres we have globally, which led me here to Singapore.

Dominic Lai
Senior Software Engineer
Equipment Vision Technology

To anyone considering joining ASMPT, I would say that you will be contributing to the development and creation of the latest technology in the market. As mentioned in ASMPT's vision: "Enabling the Digital World". You also get to work in a diverse environment, meeting people from various countries and ethnicities.

Wong Xing Han
CAD Engineer
ICT Engineering

ASMPT is a good learning ground for those who want to gain more exposure and skills as well as to share and contribute your experience for continuous improvement.

Audrey Au
Accounts Receivable Manager
