# READY DECISIVE RESPECTED

## OUR ARMY FORMATIONS

## Preface

As the bedrock of our nation's defence, Our Army is capable of performing a full spectrum of operations to protect our country and secure our future. To meet new security challenges effectively, we have been constantly evolving to upgrade our capabilities as a modern, integrated fighting force. With the strength of our combined arms – each equipped with advanced technologies and championed by dedicated people with diverse competencies – we now stand as a robust and respected 3G Army.

## The Formation of Your Future

Every formation in Our Army plays a critical role in the defence of our nation, just as every soldier carries out his or her individual duty with pride and honour. Each formation offers the prospect of a rewarding and exciting career. Whatever your interests or field of study, you will embark on a career path that brings out the best of your skills and abilities, with continuous opportunities for achievement and fulfilment in every aspect of your life.

## Contents

Introduction	Pg 2	Maintenance and Engineering Support	Pg 19-20
Armour	Pg 3-4	Military Police	Pg 21-22
Army Intelligence	Pg 5-6	SAF Ammunition Command	Pg 23-24
Army Medical Services	Pg 7-8	Signals	Pg 25-26
Artillery	Pg 9-10	Supply	Pg 27-28
Combat Engineers	Pg 11-12	Transport	Pg 29-30
Commandos	Pg 13-14	Our Army, Your Journey	Pg 31-32
Guards	Pg 15-16	What Are You Defending?	Pg 33-34
Infantry	Pg 17-18		

## Our Mission

Our Army is to deter aggression, and should deterrence fail, to secure a swift and decisive victory. Our Army is to be ready and capable of conducting a spectrum of operations to defend the security interests and sovereignty of Singapore.

## Our Vision

**Our Army – Ready, Decisive, Respected.**

**Our Army is the bedrock** of our nation's defence. We draw our strength from our Regulars, NSFs and Operationally Ready NSmen. We thrive on the support of our Families, Employers and fellow Singaporeans.

**Ready in peace**, we are capable of a full spectrum of operations.

**Decisive in war**, we will fight and win to defend our country.

**Respected by all**, our Army is a trusted national institution. We forge the fighting spirit of our people to secure our future and protect our way of life.

## Our Core Values

Loyalty to Country  
Fighting Spirit

Leadership  
Ethics

Discipline  
Care for Soldiers

Professionalism  
Safety

Get into Armour, and helm the best of mounted firepower. As a modern Knight of the Battlefield, you will use speed, mobility and devastating firepower to punch through enemy defences and seize strategic ground. In Armour, you will be the most important element in the synergy of men, machine and spirit.

# ARMOUR

## «BLACK BERET»

The Black Beret is the unifying symbol of the Armour family.

## «BIONIX II IFV»

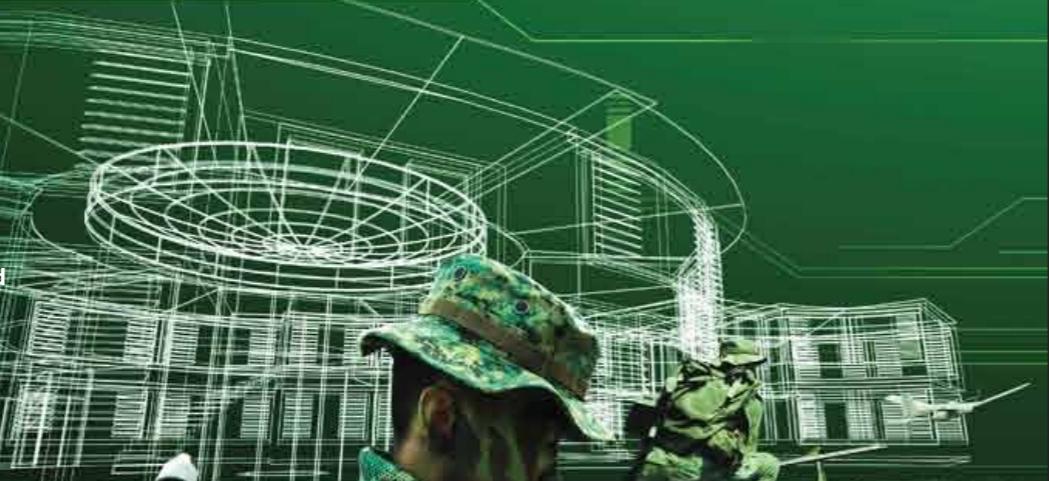

The Bionix II Infantry Fighting Vehicle (IFV) is powerful and hardy with its advanced weapon systems.

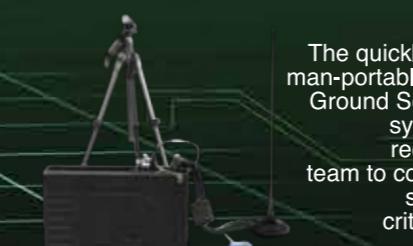

Set your mind on the Army Intelligence formation, and unmask the battlefield with superior intelligence. With your precision research and expert analysis, you will be the master of operational and combat intelligence. At your disposal will be a wide range of Unmanned Aerial Vehicles (UAV) and other sophisticated intelligence assets. In Army Intelligence, you will provide the decisive edge on the modern battlefield.

# ARMY INTELLIGENCE

## « mUAV - SKYBLADE III »

The Skyblade III mini-Unmanned Aerial Vehicle (mUAV) is a locally developed portable system that provides reconnaissance and surveillance to our ground troops.

## « UGS »

The quickly deployable, man-portable Unattended Ground Sensors (UGS) system allows a reconnaissance team to conduct tactical surveillance of critical junctions.

## « AHHTI »

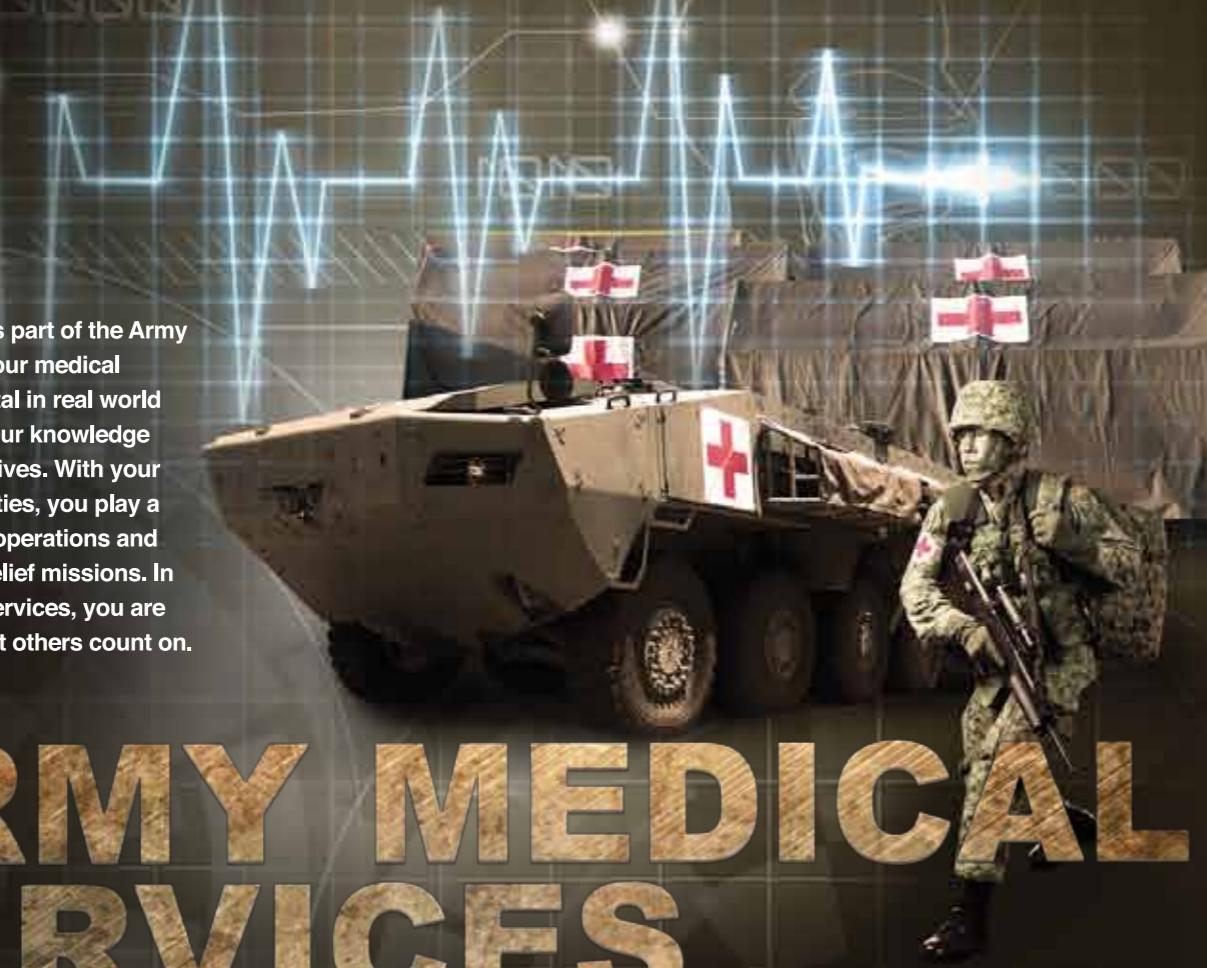

The Advanced Hand-Held Thermal Imager (AHHTI), capable of high operating magnification, is used to contrast targets against their background.

Make a difference as part of the Army Medical Services. Your medical training will be pivotal in real world situations, where your knowledge and skills will save lives. With your specialised capabilities, you play a critical role in local operations and overseas disaster relief missions. In the Army Medical Services, you are the vital support that others count on.

# ARMY MEDICAL SERVICES

## « COMBAT SUPPORT HOSPITAL »

The Combat Support Hospital (CSH) saves lives and is the mainstay for treatment on the battlefield. It is furnished with a laboratory, wards, and facilities for surgery and X-ray.

## « BATTALION CASUALTY STATION »

On the frontline, the Battalion Casualty Station (BCS) is equipped to provide mobile medical support to save lives.

## « MEDICAL BRONCO AMBULANCE »

The Medical Bronco Ambulance is a tracked vehicle with cross-country mobility that keeps up with fast-moving armoured units.

Aim for excellence in the Artillery formation. You will deliver timely, accurate, and effective fires so that manoeuvring forces can accomplish their mission. You won't see your targets, but your targets will definitely feel your presence. In Artillery, you will wield the awesome power of precision warfare.

# ARTILLERY

## « PRIMUS (SSPH) »

The most advanced of its kind in Southeast Asia, the Singapore Self-Propelled Howitzer (SSPH), PRIMUS, boasts of high mobility, agility and firepower. Moreover, with its “Hide, Shoot and Scoot” ability, the PRIMUS has great survivability while delivering responsive fires to forces in the field.

## « HIMARS »

The latest addition to the Artillery, the High Mobility Artillery Rocket System (HIMARS) is a state-of-the-art weapon system capable of hitting targets with precision up to 70km. Operated by a crew of 3, the HIMARS is highly mobile and responsive in the battlefield.

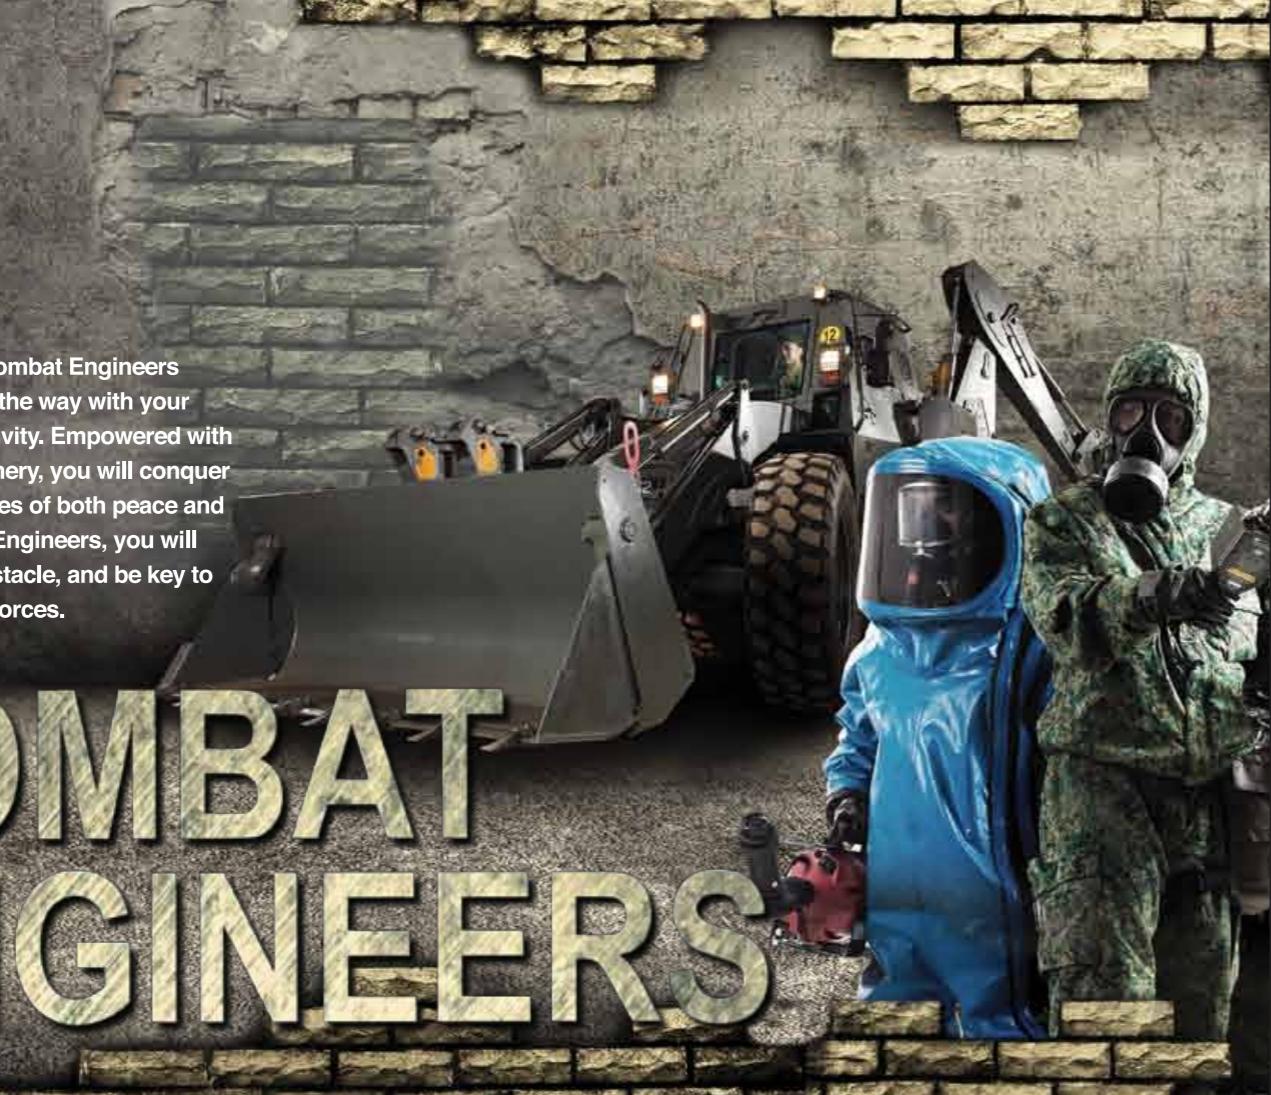

## « PEGASUS (SLWH) »

The world's first self-propelled and heli-portable Howitzer, the Singapore Light Weight Howitzer, PEGASUS, is a highly automated system with superior range and firepower. With its special recoil management design, PEGASUS reduces the recoil force of the gun by up to one-third compared to a conventional gun.

Go forward in the Combat Engineers formation, and lead the way with your versatility and creativity. Empowered with cutting-edge machinery, you will conquer all challenges in times of both peace and war. In the Combat Engineers, you will overcome every obstacle, and be key to the advance of our forces.

# COMBAT ENGINEERS

## «« M3G »»

The M3G Military Float Bridge/Raft is a highly-mobile platform which ensures that waterways pose no obstacle to our forces.

## «« ADVANCED ROBOTS »»

Advanced robots equip the Combat Engineers – the Explosive Ordnance Disposal Unit – to neutralise any potential threats.

## «« TRAILBLAZER »»

The Trailblazer mine-clearing vehicle blazes through hostile grounds, clearing 100m of mine-infested terrain in a mere 7 minutes.

Be presented with the coveted Red Beret, and stretch your limits and abilities as part of the Commandos. You will strike under the cover of darkness to gain tactical advantage, conducting raids, special reconnaissance and interdiction of enemy via air, land and sea. With unparalleled combat fitness, resilience, determination and mental agility, you will move faster, go further and strike harder to achieve mission success. In the Commandos, your stealth will be matched only by your deadliness.

# COMMANDOS

## «AIRBORNE OPERATIONS»

Commandos are experts in Airborne Operations, with a high level of tactical and technical proficiency in parachute operations.

## «SOTF»

The Special Operations Task Force (SOTF) specialises in counter-terrorism and special operations; the most lethal weapon in Our Army's arsenal.

## «RED BERET & STILETTO KNIFE»

The Red Beret and Stiletto Knife are globally recognised symbols of elite troopers, setting the Commandos apart from the rest.

Take off with the Guards, and high-speed deployments from a helicopter will become second nature. You will be able to land in any condition, any situation, anywhere, using specialised techniques such as hover-jumping and heli-rappelling. In the Guards, the khaki beret will be your pride, and being ready to strike will be your trademark!

# GUARDS

**UNDERSLUNG & HELIBORNE OPERATIONS**

Guardsmen are proficient in underslung and heliborne operations, allowing them to rig cargoes and vehicles onto a hovering helicopter for rapid deployment of troops and equipment.

**ELITE WARRIORS**

The Khaki Beret and Guards Tab signify the elite status of Guardsmen, and testify that the wearer has undergone the gruelling Guards Conversion Course.

**MOBILE STRIKERS**

The Light Strike Vehicle is as dynamic as the modern battlefield, packing an arsenal of destruction in its compact build, with powerful weapons like automatic grenade launchers and anti-tank missiles.

Be part of the largest fighting body in Our Army and gain privileged entry to a proud tradition of brotherhood. The Infantry is renowned for its fighting spirit, tenacity and courage. You will be trained with state-of-the-art equipment in a highly integrated and networked environment. You will be able to operate under all weather conditions across all terrain profiles, both day and night.

# INFANTRY

## «TERREX»

The armoured Terrex Infantry Carrier Vehicle with enhanced firepower and situational awareness protects and gives our Infantry troopers the edge in any battle space.

## «MODULAR SAR 21»

Like every individual Infantry trooper, every mission is unique. To ensure optimal man-machine-mission compatibility, the modular SAR 21 can be easily configured and customised for the perfect fit.

## «M110 SNIPER RIFLE»

Having an 800m effective range, this precise sniper rifle allows the Infantry trooper to engage any target with deadly accuracy. No target is safe.

Make your entrance into Maintenance and Engineering Support, and be the critical link empowering our cutting-edge systems. You will sustain our sophisticated defence systems, giving our forces the decisive military edge over our adversaries. In Maintenance Engineering and Support, you will maintain Our Army's capabilities at its peak.

# MAINTENANCE AND ENGINEERING SUPPORT

## « ELECTRONIC »

The diagnostic set is an advanced and accurate tool that is used to identify electrical faults in our weapon systems.

## « AUTOMOTIVE »

The Tracked Maintenance Task Vehicle (TMTV) is deployed in the field to ensure that our vehicles are well-maintained and efficient at all times.

## « ARMAMENT »

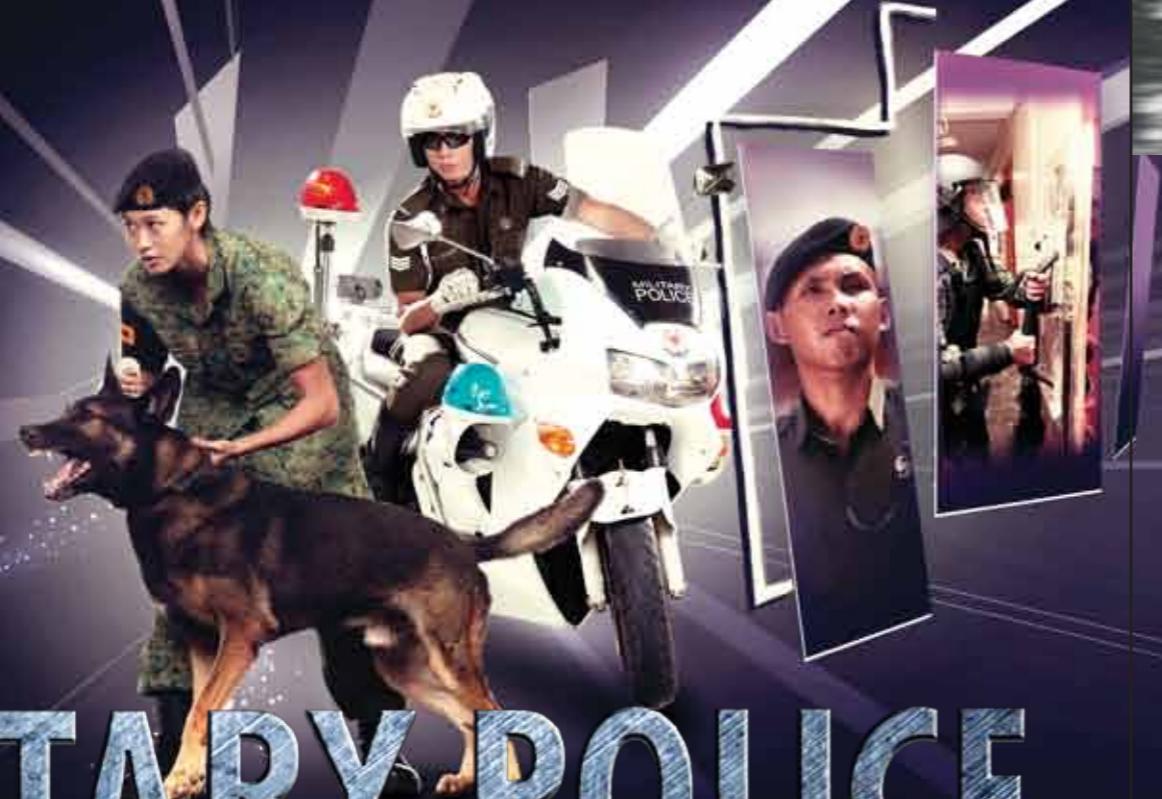

The Turret Maintenance Trainer (TMT) simulates malfunctions to test our engineers' diagnostic and maintenance skills, thereby improving their competency.

Put on the uniform of the Military Police, and take on the responsibility of upholding Military Law in war and peace. You will enforce standards of discipline and decorum; secure key military installations; provide security support for national and SAF events; and have the honour of being the ceremonial guard at national events. In the Military Police, you are expected to inspire pride and discipline.

# MILITARY POLICE

## « SPECIAL SECURITY AND PROTECTION »

The Special Security Protection unit is a highly-trained group of Military Policemen that provides close protection for key appointment holders.

## « SIB »

Using specialised investigative and forensic techniques, the Special Investigation Branch (SIB) upholds truth and justice by conducting investigations and revealing facts of crimes.

## « MILITARY WORKING DOG »

The specially trained Military Working Dogs are deployed in key military installations, Arms and Explosive Search (AES), and narcotics detection, thereby strengthening security and enforcement operations.

Take aim at a challenging career in the SAF Ammunition Command, where you will undertake a wide range of engineering and supply chain responsibilities. At the heart of the SAF's firepower, you will become an expert in the latest ammunition and guided missiles technology, and be entrusted to ensure the availability, safety and performance of the SAF's ammunition.

# SAF AMMUNITION COMMAND

**STATE-OF-THE-ART AMMUNITION**

The 3G SAF possesses cutting-edge firepower that incorporates advanced explosives effects, guided weapons technology, as well as safety and performance features.

**DEEP KNOWLEDGE OF AMMUNITION**

SAF Ammunition Command handles everything from supply chain concepts to storage, transportation, maintenance, defect investigation safety and reliability testing of the SAF's ammunition.

**GUARDIANS OF FIREPOWER**

Managing over 300 munition types in the SAF's arsenal, SAF Ammunition Command conducts 3,000 test-firings every year to ensure their performance and safety.

Connect with Signals. Take charge of complex Command, Control, Communications & Computers (C4) systems. In Signals, you will operate state-of-the-art C4 systems and networks that integrate our fighting platforms together as an effective system of systems, unleashing the full potential of our fighting forces with increased precision and lethality. You will support integrated sensor shooter systems, providing significant advantages to our forces on the battlefield. In the Signal formation, you are the information and network expert of our digitised force.

# SIGNALS

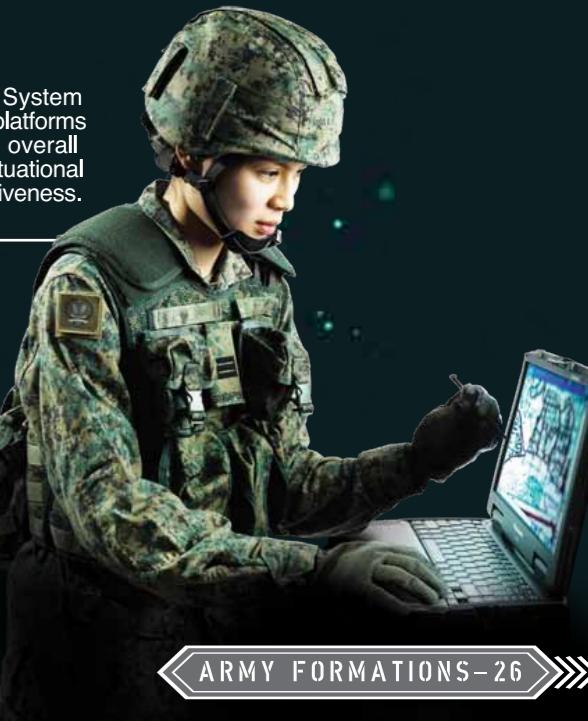

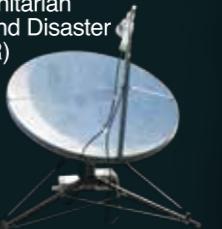

## «**TCS**»

The Trunk Communications System (TCS) connects and networks our soldiers and platforms through secure data and voice communications over vast distances rapidly and reliably.

## «**SATCOM**»

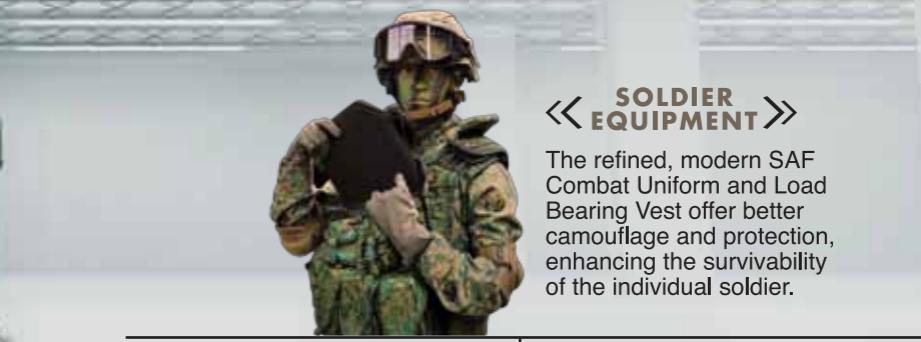

Satellite Communications (SATCOM) system provides non-terrestrial wide area communications to allow for more effective command and control during Humanitarian Assistance and Disaster Relief (HADR) operations.

Put your Supply Chain Management skills to the test in the Supply formation. Taking charge of a diverse inventory, you will ensure that our forces are equipped to perform their best in every undertaking. With your valuable input, personal equipment development will be brought to the next level. In Supply, you are the vital artery of Our Army sustaining our forces.

# SUPPLY

## « SOLDIER EQUIPMENT »

The refined, modern SAF Combat Uniform and Load Bearing Vest offer better camouflage and protection, enhancing the survivability of the individual soldier.

## « FORCE SUSTENANCE »

Innovative logistics solutions are instrumental in nourishing and equipping every soldier, ensuring that Our Army is operationally ready at all times.

## « CAPABILITIES DEVELOPMENT »

The Water Purification Unit (WPU) enhances Our Army's capabilities by providing potable water during outfield deployments.

Get on the fast track and be the moving force behind Our Army. With Air, Land, and Sea Transport Capabilities at your disposal, you ensure that troops and supplies get to where they are needed. As specialists in transport planning, command and execution, you will have opportunities to provide efficient and reliable transport support for national and international events. In the Transport formation, you are Our Army's pillar of confidence.

# TRANSPORT

## « PRECISION AERIAL DELIVERY SYSTEM (PADS) »

Resupplies are delivered with pinpoint accuracy via a C-130 transport aircraft with the Precision Aerial Delivery System (PADS), a GPS guided airdrop system.

## « HMCT »

The High Mobility Cargo Transporter (HMCT) can be fitted with a massive fuel tank, complete with nozzles, to refuel combat vehicles in the field.

## « LARC V »

Capable of moving on both land and sea, the Lighter Amphibious Resupply Cargo 5-Ton (LARC V) is the platform of choice to deliver massive loads of up to five tons across water obstacles.

# Our Army, Your Journey

Throughout your career, you will enjoy opportunities for personal development and experience an exciting and varied life. The wide spectrum of Our Army's operations, both at home and overseas, will provide unique challenges across different environments. You will be trained for success and moulded into a respected leader.

“ What is most important is our Singapore spirit: the courage to stand up and be counted when the going gets tough; the willingness to fight for our family, friends and fellow Singaporeans; and the determination to defend our home, if necessary, with our lives. ”

— Prime Minister Lee Hsien Loong

# What Are You Defending?

There is nothing like safeguarding your country, and that's what makes soldiering such an extraordinary profession. From ensuring the stability of our economy to watching over the future of our nation; from preserving our way of life to protecting our family and loved ones; it requires a high level of conviction and commitment to uphold the duty to defend.

If you think you have what it takes, we invite you to join us. Answer your highest calling, and find your mission in life with Our Army.

**“The most dependable guarantee of our independence is a strong SAF.”**

— Dr Goh Keng Swee, former Deputy Prime Minister
